Text:

Emily is suffering from Obesity. She goes to the doctor in order to help her with some pieces of advice.

Doctor: Good morning. How can I help you?

Emily: Hi, doctor. I'm worried about my weight. I want to lose some kilos.

Doctor: I understand! have you noticed any problems due to this over weight?

Emily: Yes, I feel very tired and out of breath which causes me a headache.

Doctor: Let's try to make some changes. Have you tried eating healthier foods?

Emily: I have tried, but it's hard to stop eating junk food.

Doctor: It's tough, but we can start. Try eating more fruits, vegetables and lean meats instead of fast food.

Emily: Okay, I will give it a try. What else should I do?

Doctor: Regular exercise can help also, even just a short walk every day can make a difference.

Emily: Alright, I will take all these pieces of advice into consideration .Thank you for your help Doctor I appreciate.

Doctor: you're welcome Emily. We will work together to help you feel better. I'm sure you can do it.

adapted by the teacher

Part one: (14 pts)

Task One: Reading Comprehension (7 pts)

A/ Read the text and choose the appropriate title: (0.5 pt)
